

12 DON'T LET YOURSELF BE ... (C) ®

Wolf Biermann. Arr. Laka Daisical Transl. H. Weber

Don't let yourself be hardened
When our times are hard
The very hard ones crack up
The very sharp ones lash out
And fall to bits at once (x2)

Don't let yourself get bitter
In our embittered days
The powerful will not shiver
Once you are jailed and bitter
Because you are in pain (x2)

Don't let yourself be frightened
In our times of fright
They only want to scare us
So we give up our anger
Before we start to fight (x2)

Don't let yourself get tired
But stay here by our side
You can't forget the struggle
You need us and we need you
Your joyfulness and pride (x2)

We won't get lost in silence
In these numbing times.
Our new ideas and visions
Will bring us all together
As we work side by side (x2)
